Luther Burbank's Marvelous New Creation

The Earliest Tomato in the World

THE BURBANK TOMATO

By far the earliest, smoothest, solidest, most productive, and best of all early tomatoes; resists wilt and other tomato diseases better than most others. Fruit bright crimson; thick, solid, heavy, smooth, firm, medium to large in size, superior quality, unusually heavy and continuous bearer throughout the season; best keeper and shipper.

The "Burbank" has one other unique and most remarkable quality which will be appreciated by those who like fresh sliced tomatoes for the table. Unlike other tomatoes, the skin peels freely from the rich, firm flesh. Price: Per pkt., 15c; 2 pkts, 25c; $\frac{1}{4}$ oz., 50c; $\frac{1}{2}$ oz., 80c; 1 oz., \$1.50.

ORDER SHEET for SAUL'S SELECT SEEDS

Charles F. Saul

SEEDSMAN

SYRACUSE, N. Y.

BEFORE MAKING OUT YOUR ORDER read carefully remarks on page 2 of the Catalogue. Our customers will oblige us by using this sheet in ordering. Remittance can be made by Draft, Money Order or Registered Letter, and the cost deducted from the amount of money sent.

State here whether wanted by
MAIL, EXPRESS or FREIGHT

[illegible]

SAUL'S

Why This Little Book Will Save You Money

FOR many years it has been our custom to publish an annual illustrated catalogue listing and describing our full line of Field, Flower and Garden Seeds, Implements, Poultry Supplies, etc. We are now dispensing with the illustrations, descriptions and detail and substituting instead an inexpensive plain price list. By doing this we are saving an enormous overhead expennse which would have to be added to the costs, and for this reason we are now enabled to allow our customers to benefit by the difference, and still adhere to the same standard of quality that has made so many friends for us in the past.

For 44 years Saul's Seeds have stood the test, as our old friends and customers have confirmed by their continued patronage and good will. We are proud of our record for dependable seeds, which we have earned by diligent care and selection and for the fact that every lot of seed that enters our building or is carried over from one year to another is carefully tested for germination in our laboratory before it is offered for sale.

Saul's Seeds come to you packed in plain packages. No fancy colored lithographs, but larger quantities and better quality. Every 5 cent envelope, ounce, one-fourth pound and pound package is weighed up from the bulk at the time that the order is received. The only exception to this rule being in the case of one or two varieties of vegetable seeds, a few herbs and many flower seeds which are so small in size, light in weight and expensive in price and that it is impossible to weigh and have to be measured or counted to sell for small amounts. This is done before the seed season opens to save time. "Buy your seeds from the bulk and let your money pay for larger measure and fresher stock."

SAUL'S

Seeds Delivered Free by Parcel Post

We will deliver free to any place within 300 miles of Syracuse by parcel post or express (our option) all vegetable and flower seeds at the prices in this catalogue.

When it is required that postage be added to the purchase price of any commodity, note the distance you are from Syracuse, see in which zone you live. It is then easy to estimate the exact amount of postage required by consulting the scale below.

DOMESTIC PARCEL POST RATES

On Seeds, Plants, Bulbs, Roots, etc., within the
U. S. and Possessions

	First lb. or fraction	Each addit'l lb. or fraction
First Zone, Syracuse and within 50 miles of Syracuse	5c	1c
Second Zone within 50 to 150 " " "	5c	1c
Third Zone " 150 to 300 " " "	6c	2c
Fourth Zone " 300 to 600 " " "	7c	4c
Fifth Zone " 600 to 1000 " " "	8c	6c
Sixth Zone " 1000 to 1400 " " "	9c	8c
Seventh Zone " 1400 to 1800 " " "	11c	10c
Eighth Zone " all over 1800 " " "	12c	12c

How to Order Please be careful to sign your Name, Post Office, County, and State on each and every letter sent us. Cash should accompany the order. See instructions below on how to send money.

You Run No Risk in sending cash with order. My reputation as an honest and experienced Seedsman is well known, while my financial responsibility can be learned from any Bank, Trust Company, or Merchant who subscribes to either of the Commercial Agency Reports.

Bags 15 cents must be added for every $\frac{1}{4}$ Bu. and 20 cents for $\frac{1}{2}$ Bu. of seed ordered and 40 cents for every 1 Bu. or over to 2 Bu. lot, to cover cost of new bags in which to ship.

Our Terms are Strictly Cash with the Order. We do not send C. O. D., as the cost of collecting return charges is quite an unnecessary item of expense and the prices being given, we can conceive of no necessity to warrant goods being so sent.

How to Send Money. Remittances may be made at our risk by any of the following methods, viz.: Postal Money Order, Draft on New York or Chicago, or Express Company's Money Orders, or cash by Registered Letter. We accept clean postage stamps the same as cash.

The rates charged for Postal Money Orders and Express Money Orders are now so low that these are the best way to remit. We will bear the expense of sending money in either of these ways. Deduct the cost of the order from amount sent, Express Money Orders can be obtained at all offices of the Principal Express Companies. They are cheap and absolutely safe.

Guarantee: Complaints made that seeds are not good, should quite as often be attributed to other causes as to the quality of the seeds. There are hundreds of contingencies continually arising to prevent the best seeds always giving satisfaction, such as sowing too deep, too shallow, in too wet or too dry soil; insects of all descriptions destroying the plants as soon as or before they appear; wet weather, cold weather, frosts, chemical changes in the seeds, induced by temperature, etc. For the above reasons it is impracticable to guarantee seeds under all circumstances.

We give no warranty, express or implied, as to description, purity, productiveness, or any other matter of any seeds we send out, and, we will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.

CHAS. F. SAUL, Syracuse, N. Y.

February 1, 1923.

Lawn Grass Seed

Saul's Central Park Mixture. This mixture is the result of years of mixing and testing lawn grasses. We have the correct combination adapted to suit most any soil or situation, and it will produce a rich, heavy, matted, deep rooted velvet lawn, in three or four weeks' time from sowing. Our Central Park Mixture is composed of heavy, choice, recleaned seeds, contains no chaff or weed seeds. and weighs much more than the legal weight per bushel. Write for price.

Saul's Shady Mixture. This is a combination of fine grasses which thrive under the shade of trees or buildings where there is little sun. It succeeds in shady places where others fail. The grasses stay green—do not die out—resist drought, because they are deep rooted. Write for price.

SAUL'S

FARMOGERM

A Seed Inoculant

That Increases Crop Production

Seeds of all legumes—beans, peas, clover, alfalfa, and related crops—will yield far better if inoculated with Farmogerm, and in addition leave in the soil a heavy deposit of nitrogen which benefits all succeeding crops. Gardeners and farmers who have used Farmogerm would not be without it.

Farmogerm Stays Good Indefinitely

Farmogerm keeps for years. Because of the method of sealing the bottle—a patented stopper which admits filtered air and keeps out all impurities—Farmogerm is just as good in five years as when first bottled. Other inoculants get weaker each day—Farmogerm always has its strength. Just add water and shake the bottle and sprinkle over the seed as directed. Your crop will benefit beyond your expectations.

Farmogerm Is Economical

No other inoculant on the market is so strong and virile; no other inoculant will thoroughly treat as much seed. The one-acre size bottle of Farmogerm is sufficient for 15 pounds of clover, 20 pounds of alfalfa, 100 pounds of Canada Field Peas, 60 pounds of Vetch, etc. A different bacteria is required for each crop. When ordering, be sure to state what crops you wish to inoculate.

Farmogerm Prices Reduced

New scientific methods of manufacture have given lower prices. You cannot now afford to do without Farmogerm.

A special composite culture is prepared for peas, beans and sweet peas— $\frac{1}{4}$ -acre size only. You'll get more peas and beans, and larger sweet peas by using this. Ask for No. 5, price 50 cts.

Farmogerm prices are: 1-acre size \$1; 3-acre size, \$2.50; 12-acre size, \$9. Full directions accompany each bottle.

Charles Fremd's Formula

A MODERN WASH FOR TREES AND PLANTS INFESTED WITH SCALE INSECTS, SUCKING PLANT LICE, (aphis and thrips) and SOME SPECIES OF PARASITIC FUNGUS, ESPECIALLY THE SPORES OF SCAB ON APPLE AND PEAR TREES WHEN APLIED AT THE DORMANT OR SEMI-DORMANT STAGE.

SAUL'S

INSECTICIDES

ARSENATE OF LEAD (Paste). One of the safest and best insecticides for leaf-eating insects. It will not injure the most delicate foliage. One pound to ten gallons of water has been used on younger leaves without scorching or burning them. It adheres to the foliage for weeks. It is white in color; sprayed foliage may thus be distinguished from unsprayed at a glance. It can be used with Bordeaux Mixture, or Lime and Sulphur Solution. See directions on each package, 1 lb. 30c, 2 lbs. 55c, 5 lbs. \$1.25, 10 lbs. \$2.25, 25 lbs. \$5.25, 50 lbs. \$10.00, 100 lbs. \$18.00.

ARSENATE OF LEAD (Powder). It is more convenient to handle than the paste form and may be used for either liquid or dry applications. As it is double the strength of the paste form it is used at half the quantity. For use against all leaf and fruit eating insects on Apple, Pear, Plum, Cherry and Peach Trees. Also Potatoes, Tobacco and other crops. 1 lb. 55c, 5 lbs. \$2.65.

POWDERED CALCIUM ARSENATE. For spraying Apples, Pears, Grapes, Potatoes, Garden Truck, etc., (not recommended for stone fruits or plants having tender foliage.) It is a neutral non-burning, light, dry Arsenate of Lime and is stronger and cheaper than Arsenate of Lead. Indorsed by the Dept. of Agriculture at Washington. 1 lb. 50c, 5 lbs. \$2.25.

BLACK LEAF 40. This excellent insecticide is a concentration of Nicotine Sulphate and is guaranteed to contain not less than 40% nicotine by weight. Destroys aphids (plant lice), thrip, leaf hoppers and similar insect pests in the truck garden, orchard, flower garden, vineyard, etc. It has been highly recommended by Experiment Stations throughout the United States as a spray for soft-bodied sucking insects. May be combined with other sprays. Soluble in cold water. Does not clog the nozzle, 1 oz. bottle 35c, makes 5 to 10 gallons; 1/2 lb. can, \$1.25, makes 40 to 100 gallons; 2 lb. can, \$3.75, makes 200 to 500 gallons; 10 lb. can, \$15.00, makes 840 to 2100 gallons.

BORDEAUX MIXTURE (Powder Form.) This indispensable fungicide is used as a preventative against blight on fruit trees, potatoes, tomatoes and other truck crops. It can be used for either liquid or dry application, is easy to apply and sticks well to the foliage, (not recommended for stone fruits or plants having tender foliage). 1 lb. 40c. Write for prices on larger lots.

BORDEAUX AND PARIS GREEN COMPOUND. (Powder form.) For potato bugs, many plant-eating pests and blights, all in one operation. This combined fungicide and insecticide is easy to apply and sticks well to the foliage and has a tendency to keep it in a healthy condition. Can be used in either li-

quid or dry form, (not recommended for stone fruits or plants with tender foliage). Lb. 50c. Write for prices on large lots.

BUG DEATH. Largely used instead of Paris Green. It is claimed to have the same effect, but is not poisonous to persons. It comes in powder form and is applied pure. Prevents blight and adheres readily to the vines; rain does not wash it off, also acts as a fertilizer and increases the yield as well as the quality. 1 lb. 20c, 3 lbs. 50c, 5 lbs. 70c, 12 1/2 lbs. \$1.35, 100 lbs. \$9.00. Bug Death Dusts, 25c each.

CAASCU (K. S. Q.) Combines the most valuable properties of Paris Green and Bordeaux Mixture. It is a neutral, non-burning, light, dry Copper and Arsenic Insecticide and fungicide and is of the highest value for the protection of the farmer and home gardener against loss by the attacks of leaf-eating insect and fungus diseases upon Potatoes and general Truck Crops. Put up in powder form and may be used dry or as a liquid. 1 lb. 40c, 5 lbs. \$1.80.

PARIS GREEN. The old standby for potatoes. We handle nothing but Pure Paris Green. Directions for use with each package. 1/4 lb. 20c, 1/2 lb. 35c, 1 lb. 60c, 2 lbs. \$1.15.

PYROX. A combined Insecticide and Fungicide killing all leaf-eating insects and preventing most of the plant diseases that attack trees and plants. Used and recommended by the best authorities. Ask us for reports and testimonials. All ready to use by adding water. 10 pounds make 50 gallons of spray. 1 lb. 45c, 5 lbs. \$1.65, 10 lbs. \$3.00, 25 lbs. \$6.00, 50 lbs. \$11.00, 100 lbs. \$18.50.

RED WING INSECT POWDER. For the destruction of Roaches, Flies, Bedbugs, Moths, Mosquitoes, Lice, Chicken Lice, Ants, Red Ants, Fleas, etc. Harmless to mankind and animals. Applied direct from patent bellows-package. Pkg. 10c. Large size 25c.

SLUG SHOT. A very popular and one of the cheapest powders for destroying insects. Especially fine for cucumbers and cabbages. Sure killer. Harmless to mankind and animals. 1 lb. 20c, 5 lbs. 60c.

NIAGARA SOLUBLE SULPHUR. For the control of San Jose Scale and Apple Scab, it excels both as a winter and summer spray. It dissolves instantly in cold or hot water, sticks like paint and leaves a fine waxy finish on the fruit. A 100-lb. drum of this powder makes as much diluted spray material as a 50-gal. bbl. of lime and sulphur solution weighing 600 lbs. No barrel to return. No crystallization. 1 lb. 30c, 5 lbs. \$1.00, 10 lbs. \$1.75, 25 lbs. \$3.25, 50 lbs. \$4.75, 100 lbs. \$8.00.

TOBACCO DUST. For dusting only. Excellent for Lettuce and other plants to destroy soft creeping insects. 1 lb. 10c, 100 lbs. \$6.

B. & B. LICE KILLER AND FLY EXTERMINATOR (Barth's Original)

This wonderful Spray and Disinfectant completely protects horses, cattle, sheep, hogs and poultry from the torture of flies, lice and ticks. It is perfectly harmless and easily applied, and can also be used for itches and scratches on horses with the best results. Indorsed by farmers, dairymen and poultrymen everywhere. Price, 1 gallon can, \$1.25.

RAT CORN

Rat Corn is a new and scientific rat and mouse exterminator and kills without any bad, dangerous or disagreeable effects. Rats and mice eat it readily, and die without odor as it mummifies them. No matter where they die they simply dry up and positively do not smell. Rat Corn is easy to use, cheap and harmless to human beings and live stock. It will kill rats and mice where traps and other devices fail. Price 25c per can, by mail 30c.
